## NINTH ANNUAL REPORT OF THE BOARD OF TRUSTEES.

To the Contributors :

The Board of Trustees, in submitting the Ninth Annual Report, recognizes the necessity of presenting the condition of the Hospital, which is better than at any time during the nine years of its existence.

The Hospital Building which, at date of last report, had six floors, now has seven.

The fifth floor has been suitably fitted for private rooms, and the Board considers the results of its efforts in so enlarging the bed-room capacity and in the painting of the walls and ceilings, thereby adding greatly to the conveniences and to the beauty of the interior of the Hospital, worthy of appreciation.

The Board desires to express its profound thanks to the State Board of Charities, the Legislature and to the Governor of the Commonwealth of Pennsylvania for the appropriation of one hundred thousand dollars, through which liberality it has been enabled to make general improvements greatly needed and to purchase the building adjoining the Hospital at the corner of Eighteenth and Cherry Streets.

All of the imperative needs of the Hospital are not yet, however, supplied. The contributors and the charitable public should know that the improvements made, and others in contemplation, are necessarily matters of great concern to those immediately interested; and that efforts are required to be made which shall secure a fund from which a revenue can be derived.

The Board acknowledges its debt of gratitude to the Medical and Surgical Staff for the services so efficiently and cheerfully rendered.

To Mrs. Kendal and The Ladies' Aid Society who so largely and efficiently assisted in furnishing the rooms on the fifth floor, the Board extends its warm and grateful thanks.

In the appended report of the late Superintendent, Dr. Alexander Ramsay, is to be found the details of management.

JOHN P. NICHOLSON,

*President.*

PHILADELPHIA, January 29, 1894.

## REPORT OF THE SUPERINTENDENT.

MEDICO-CHIRURGICAL HOSPITAL,  
PHILADELPHIA, January 29, 1894.

To the Board of Trustees.

*Gentlemen* :—I hereby submit my last Annual Report. During the year there were admitted and treated in the wards and rooms of the hospital, four hundred and fifty (450) male, and three hundred and thirty (330) female patients. In the receiving ward one thousand three hundred and eight (1308) accident cases were treated; in the dispensary service six thousand nine hundred and forty-eight (6948) cases, making a total of nine thousand two hundred and sixty-one (9261) patients. Fifteen thousand three hundred and seventy-eight (15,378) prescriptions were dispensed in the drug store. The year just closed has been an eventful period in the history of the institution, and one of hard work and anxiety for the best interests of the hospital, and much was accomplished through the staunch support which, on all occasions, the Hospital Committee rendered your Superintendent. As will be seen by an accompanying report of the Committee on Real Estate, the facilities of the hospital have been greatly increased and improved during the year.

Although so much has been achieved, much more is required to keep pace with the ever increasing demands of charity.

The present occasion is opportune for stating that the services of the Visiting Staff of Physicians and Surgeons have been faithfully rendered. The Resident Physicians, Drs. Edwin G. Thompson, W. W. McKelvey, Chas. L.

Furbush, and H. S. Kinne, deserve credit for the capable manner in which they have performed their duties. The Apothecary, Mr. D. A. Nolan, merits special mention for his efficiency and integrity.

Dr. John H. Eagan attended to his duties as Registrar very satisfactorily.

The Training School for Nurses is constantly proving its usefulness; the nurses give the patients superior care and attention, and credit is due to the Head Nurse, Miss M. T. Daily, for close attention to the duties of her position.

Reports of the various departments of the Hospital and Dispensary services are appended and are worthy of perusal.

In conclusion, having resigned my position to begin the practice of medicine, the official relationship with the Medico-Chirurgical Hospital terminates to-day. While thus severing my connection with the hospital I shall ever hold dear the true friendship, advice, and many acts of kindness I have received from your Honorable Board.

Respectfully,

ALEXANDER RAMSAY, M. D.

## REPORT OF REAL ESTATE COMMITTEE.

The Committee on Real Estate respectfully submits the following report, for the year, of the duties performed under its jurisdiction: It is with great satisfaction that we announce the completion of the unfinished fifth story. The additional fifteen rooms thus acquired add materially to the capacity of the building, and they are another step in the progressive charity which is characteristic of the institution. These rooms, when properly furnished, will markedly increase the usefulness of this noble branch of brotherly aid; and judging from what has already been accomplished in this direction through the unselfish and energetic work of the Ladies' Aid Society of the hospital we think we are warranted in anticipating a speedy equipment of these much needed rooms; but we trust this favorable outlook will not deter the trustees' friends, and the public, from making strenuous efforts to continue this generous work to the necessary end. The utilization of the building, from basement to dome has been assured by the introduction of a Stokes & Parish elevator (hydraulic) constructed with special reference to hospital service. The laundry has been equipped by the Hospital Supply Company with modern machinery, which insures thoroughness and despatch, two essentials in the treatment and prevention of disease. The interior of the hospital and adjoining dispensary rooms have been made more attractive by the liberal use of paint and putty, while many minor internal improvements contribute no little in convenience and general appearance. While we have given special attention to the interior we have not altogether, as will be seen, neglected the exterior. A very extensive and complete

fire-escape has been erected in strict accordance with the requirements of the law, covering the entire east side of the main building, and affording egress from every window by means of ample and continuous platforms with double rows of stairs, so arranged as to be of the greatest utility, and extending, with guarded flanks, to the ground, thus presenting a secure and picturesque appearance. The roofs have been carefully inspected and repaired, and a storm shelter has been built at the dispensary entrance. From the statement submitted, it will be evident that the Real Estate Committee has been a busy one, and for any seeming want of activity, or delay in the discharge of our duties, we can only plead the interest of the hospital.

HENRY I. DORR, *Chairman,*  
*Real Estate Committee, Medico-Chirurgical Hospital.*

## REPORT OF TREASURER.

## REPORT OF LADIES' AID SOCIETY TO THE MEDICO-CHIRURGICAL HOSPITAL.

On the 4th of December, 1893, this Society was formed by a few ladies with the object of benefiting the Hospital in many ways which are a little beyond the immediate needs of the Institution. That such an organization was desirable, may be easily seen by the amount of work already successfully accomplished. On December 15th, Mrs. W. H. Kendal, of London, gave a reading, the proceeds of which amounted to six hundred dollars. This money was expended on the complete furnishing of three rooms. On February 24th, Dr. A. Graham Reed, of Philadelphia, gave an illustrated lecture, which brought in one hundred and fifty dollars. This has enabled the members to paint and refurnish the two Board Rooms in the Hospital. Various other details were added, such as night dresses for men, women and children; window shades; Macintosh sheets; spoons and forks; etc. At Christmas time many gifts were sent by friends, as seen in the adjoining list.

There are still several empty rooms, and it is the desire of this Society to see them all thoroughly furnished before the close of 1894.

The ladies beg very urgently for additional annual subscriptions to the Hospital, to assist them in carrying out their present plans.

To be added to the above benefits, and which are gratefully acknowledged, are the following:

Mr. C. W. Bergner . . . . .	\$100 00
Mrs. E. L. Lewis . . . . .	38 00
Miss Rebecca Coxe, by Mrs. Lewis . . . . .	25 00

Mrs. Geo. F. Fox . . . . .	\$20 00
Mrs. Wm. Thornton Carter . . . . .	10 00
Mr. John E. Fox . . . . .	5 00
The King's Daughters, by Miss Exton . . . . .	5 00
Messrs. John DeZouche & Co., table cover, blinds, and window furnishings.	

Ladies' Aid Society, three rooms furnished; night dresses for men, women, and children; spoons and forks; muslin; Macintosh sheets.

Mr. Geo. B. Evans, china, etc.

Mrs. Edwin S. Cramp, sewing-machine, toys.

Mrs. W. Easterly Ashton, Christmas tree gifts.

The Misses Pancoast, Christmas tree gifts.

Mrs. J. V. Shoemaker, Christmas tree gifts.

Mrs. L. Webster Fox, Christmas tree.

American Sunday-school Union, 200 Christmas cards.

Prof. T. S. C. Lowe, one room furnished.

#### ANNUAL SUBSCRIBERS OF THE AID SOCIETY.\*

Messrs. Burnham, Parry, Williams & Co. . . . .	\$50.00
Mr. E. W. Clark . . . . .	10.00
Mr. Charles Benton . . . . .	5.00
Mr. E. M. Needles . . . . .	5.00
Messrs. B. Hooley & Co. . . . .	5.00
Messrs. P. P. Mast & Co. . . . .	5.00
Mr. J. M. Duncan . . . . .	5.00
Mr. Eugene Delano . . . . .	5.00

Credit and thanks are due Mrs. W. H. Beard for painting and furnishing rooms on first, third and fourth floors, diet kitchen, Superintendent's dining-room, rotunda and halls; staining and varnishing laboratory floor, also supplying rocking-chairs, tables, etc., for two private rooms.

Donations, assisting Mrs. Beard in the above work, were as follows: Mr. John T. Lewis, 50 pounds white lead; Messrs. George D. Wetherill & Co., 25 pounds plaster of paris and 8 gallons mixed paints; Messrs. C. H. Howell & Co., 4 gallons ready-mixed paint; Messrs. Felton, Sibley & Co., 2 gallons light liquid filler; Mr. S. H. French, 50 pounds white lead; Mr. William E. Heinch, 1 barrel white enamel paint and 1 pint varnish; Messrs. Dennison & De Armond, handles for bureaus; Messrs. Shannon & Sons, handles for bureaus and call-bell; Messrs. Charles Lentz & Sons, surgeons' cabin bag for ambulance; Messrs. S. H. Quint & Son, 2 door plates; Mr. Lewis F. Walton,

\*Persons become life members by payment of fifty dollars.

stencils for stamping; Mr. Alfred Schenck, dishes; Messrs. F. Weber & Co., stencils for borders; Mrs. W. H. Beard, down chair rests, towels, doilies, tray covers, napkins, ruffled pillow cases, down sofa cushion, towel racks and clothes racks, silkline for trimming screens and cushions, trimmed pin-cushions, brackets, trays, service set and tray, bottles, ornaments, etc.; also, for druggist's private room, rugs, chair, rocking-chair, pillow-cases (large), wash-stand cover, bureau cover, set doilies, trimming for pin-cushion and three bureau ornaments, chenille table cover, chamber set, wardrobe, chair cushions, hair mattress, bracket, pair curtains, lamp shade, head rests, pin cushion, pair towels. Room No. 12: Trimming for pin cushion, set doilies, screen cover, napkins, dishes for tray, pair towels. Third floor, private room: Table, rocking-chair, bottle, glass cup and saucer, pin-tray, head-rest, table covers, trimming for pin-cushion, rack. Fourth floor, room 11: Rugs, chairs, rocking-chair, table cover, bureau cover, wash-stand cover, pair towels, call-bell, pair bottles, head-rest, chair cushion, pin-tray, pair doilies, trimming for pin-cushion, dishes for tray, pair window curtains.

#### DONATIONS.

J. A. Yarnall Co., 3 knives, 6 hæmostats, 2 pairs scissors, 2 pairs forceps, 6 needles, card of Chinese silk; B. Fernley, \$1.00; Frank Schwartz, \$3.00; The Weston & Wells Manufacturing Co., reading matter; Miss Dewey, old muslin, bottles, etc.; Mr. Evanson, \$2.00; Mrs. Eberhardt, basket of apples; Wm. R. Warner & Co., liquid pan creapepsin; Wm. C. Rass,  $\frac{1}{2}$  dozen tumblers; Coatesville, box of magazines; Mrs. Wm. Easterly Ashton, garments, boxes, fancy candy, imported fruit candy boxes, oranges; John Edwards, 20 pound turkey; Mrs. L. Webster Fox, Christmas tree; Ladies' Aid Society, men's night dresses, women's night dresses, children's night dresses; Mrs. Lowe, balls for Christmas tree.

#### DONATIONS TO THE EYE DEPARTMENT.

Prof. L. Webster Fox, case of English trial lenses for testing vision, perimeter, charts, 3 adjustable brackets for dark room, oak desk, diagrams and models of the eye (painted by James R. Wood, for illustrating the lectures); ophthalmic case books by John L. Borsch & Co.; Chas. Dunkelberger, printing prescription blanks, etc., optical appliances contributed by Messrs. Bonschur & Holmes, William Ryan, John L. Borsch & Co., Queen & Co., McAllister & Co., Ferguson & Weston, H. C. Boden & Co., James Heir, Reimold & Meister, H. R. Saunders, Limeburner & Co., Borhek, John Wanamaker, D. V. Brown, Wall & Ochs, Seabury & Johnson, New York; William Snowden, instruments, silk, etc.

## EYE DISPENSARY.

Clinic of PROF. L. WEBSTER FOX, M. D.

Chief Assistant, E. FORREST KAMERLY, M. D.

### AFFECTIONS OF LIDS.

Number of Cases.		Number of Cases.	
Chalazion . . . . .	5	Ptosis . . . . .	2
Hordeolum . . . . .	4	Epicanthus . . . . .	1
Blepharitis marginalis . . . .	55	Eczema . . . . .	4
Symblepharon . . . . .	1	Milium . . . . .	2
Palpebral abscess . . . . .	1	Nævus of lid . . . . .	1
Wounds of lid . . . . .	1	Veruca . . . . .	4

### AFFECTION OF THE LACHRYMAL APPARATUS.

Number of Cases.		Number of Cases.	
Blennorrhœa of lachrymal sac	10	Epiphora . . . . .	15
Abscess of lachrymal sac . .	3	Stricture of lachrymal duct .	3

### AFFECTIONS OF THE CONJUNCTIVA.

Number of Cases.		Number of Cases.	
Conjunctivitis, catarrhal acuta	20	Conjunctivitis, traumatica .	2
“ “ chron-		Subconjunctival hemorrhage	2
ica . . . . .	28	Burn of conjunctiva . . . .	1
Conjunctivitis, folliculosa . .	25	Foreign bodies in conjunctiva	3
“ phylctenulosa	10	Conjunctival cyst . . . . .	1

### AFFECTIONS OF CORNEA AND SCLEROTIC.

Number of Cases.		Number of Cases.	
Keratitis phylctenulosa . . .	20	Leucoma corneæ . . . . .	1
“ interstitial . . . . .	5	“ adherent . . . . .	1
“ ulcerativa . . . . .	5	Wounds of cornea . . . . .	1
“ traumatica . . . . .	1	Foreign body in cornea . .	10
“ suppurativa, hypop-		Hyperemia . . . . .	5
yon . . . . .	3	Episcleritis . . . . .	1
Staphyloma cornea . . . . .	1	Burn of cornea . . . . .	1
Macula cornea . . . . .	15		

## EYE DISPENSARY—*Continued.*

### AFFECTIONS OF IRIS AND CILIARY BODY.

Number of Cases.		Number of Cases.	
Iritis, plastica . . . . .	5	Coloboma of iris . . . . .	1
“ syphilitica . . . . .	3	Melanoma of iris . . . . .	1
“ traumatica . . . . .	1	Mydriasis . . . . .	1
“ serosa . . . . .	2	Cyclitis, suppurativa . . . . .	1
Irido-cyclitis . . . . .	3	Sympathetic irritation . . . . .	1
Anterior synechia . . . . .	4	Ciliary staphyloma . . . . .	1
Posterior “ . . . . .	1		

### AFFECTIONS OF CRYSTALLINE LENS.

Number of Cases.		Number of Cases.	
Cataract, senile, mature . . . . .	4	Dislocation of lens . . . . .	1
“ “ incipient . . . . .	5	Aphakia . . . . .	3
“ traumatic . . . . .	1		

### AFFECTIONS OF CHOROID AND VITREOUS.

Number of Cases.		Number of Cases.	
Choroiditis, disseminata . . . . .	5	Hemorrhage into vitreous . . . . .	1
Glaucoma, acute . . . . .	3	Vitreous opacities . . . . .	4
“ chronic . . . . .	2		

### AFFECTIONS OF RETINA AND OPTIC NERVE.

Number of Cases.		Number of Cases.	
Retinitis albuminurica . . . . .	2	Detachment of retina . . . . .	1
“ pigmentosa . . . . .	2		

### AFFECTIONS OF EYE-BALL.

Number of Cases.	
Perforating wound of eye-ball . . . . .	1

### MUSCULAR AND NERVOUS AFFECTIONS.

Number of Cases.		Number of Cases.	
Strabismus, convergens . . . . .	5	Paralysis of external rectus . . . . .	2
“ divergens . . . . .	2	Spasm of orbicularis . . . . .	1

### ANOMALIES OF REFRACTION AND ACCOMMODATION.

Number of Cases.		Number of Cases.	
Asthenopia, accommodative . . . . .	20	Comp. myopic astigmatism . . . . .	24
Hypermetropia . . . . .	40	Mixed “ “ . . . . .	5
Hypermetropic astigmatism . . . . .	45	Anisometropia . . . . .	3
Compound hypermetropic		Presbyopia . . . . .	20
astigmatism . . . . .	30	Spasm of accommodation . . . . .	1
Myopia . . . . .	20	Hysterical amblyopia . . . . .	1
Myopic astigmatism . . . . .	25		

Total number of glasses prescribed . . . . . 125

## EYE DISPENSARY—*Continued.*

OPERATIONS.	Number of Cases.
Cataract, simple extraction . . . . .	0
Cataract, extraction with iridectomy . . . . .	5
Iridectomy for acute glaucoma . . . . .	1
Iridectomy for glaucoma . . . . .	2
Iridectomy for prolapse . . . . .	1
Enucleation of eye-ball for iridocyclitis . . . . .	2
Enucleation of eye-ball for glaucoma, absolute . . . . .	1
Removal of foreign body in cornea . . . . .	10
Bowman's operation . . . . .	4
Burow's operation . . . . .	5
Stilling's operation, with style . . . . .	5
Stilling's operation, without style . . . . .	4
Palpebral abscess incised . . . . .	1
Hordeolum incised . . . . .	4
Tenotomy of internal rectus . . . . .	6
Advancement of internal rectus . . . . .	1
Grattage . . . . .	10
Total . . . . .	61

### SUMMARY OF DISEASES OF THE EYE.

Affections of the lids and eyebrows . . . . .	71
"    "    lachrymal apparatus . . . . .	31
"    "    conjunctiva . . . . .	89
